

# IMPORTANT: MUST READ

To be able to properly adjust your awning, you must first install the Easy Pitch™ Loops. Please use the instruction below to install the Easy Pitch™ Loops onto your awning before continuing awning installation.

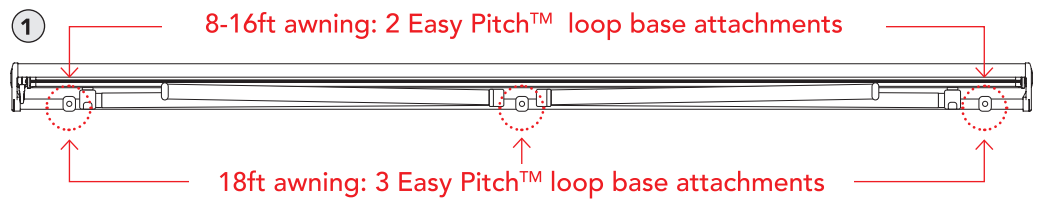

## EASY PITCH™ LOOP INSTALLATION

Check to make sure the Easy Pitch™ loop package contains all parts shown in the parts chart before installation.

Awning Size (Width)	8'~16'	18'
	Quantity	
Easy Pitch™ Loop	2	3
Easy Pitch™ Screw	2	3

**NOTE:** There are (2) Easy Pitch™ loop base attachments for 8-16ft awnings and (3) for 18ft awning.

① Locate your Easy Pitch™ loop base attachment points on your awning.

② Align the holes on the Easy Pitch™ loop and the attachment base.

③ Place the Easy Pitch™ loop onto the attachment base.

④ Secure the Easy Pitch™ loop to the awning with the supplied Easy Pitch™ screw. Repeat until all the Easy Pitch™ loops are installed on your awning.
